

Three Smart Ways to Get More Out of Your Space

Simple Ways to Keep Your Store Efficient, Clean, and Customer Friendly

A clean, clutter-free store doesn't just look better—it runs better. When space is tight, organization becomes your best tool for efficiency, safety, and sales. Here are three easy ways to make the most of every square foot.

1. Streamline Prep and Service Areas

Keep only what you need within arm's reach.

- Store extra supplies out of sight.
- Label shelves and bins for quick restocking.
- Wipe down and reset between rushes.

2. Refresh Displays and Traffic Flow

Make your space inviting and easy to navigate.

- Clear crowded counters and old signage.
- Keep top-selling products front and center.
- Make sure your warmer is visible from the door.

3. Create Smart Storage Habits

Stay organized behind the scenes.

- Rotate product using FIFO.
- Stack containers to save vertical space.
- Do a quick weekly cleanup to prevent clutter.

QUICK TIPS

Keep walkways clear.

Post a short “daily reset” checklist.

Donate or toss what you don't use.
